Comments:

I have had problems with defective fuel injectors on my 2001 Chevy Blazer. I have reported the problem to the dealer (Gus Paulos Chevrolet) and General Motors. There is currently a recall on the injectors in California only. I feel the faulty injectors should be honored for all problems relating to the injectors, not just in California. The ID # of the Blazer is 1GNDT13W41 I would appreciate any help you can give me. Thank you.
