Subject: Brakes on Grand Am 2000

*Received
1/19/06*

Had to replace the hub and brake shoes before I had 15000 miles. I put a new caliper and a new hose and its still rubbing, brake shoes are not releasing from the hub. My Grand Am has about 30,000 miles on it and have put 2 sets of brake shoes on it. And it's still rubbing. Please reply.

Thank You, Ronald
