Narrative Description of Incident(s), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure;
i.e., parts repaired or replaced (and if old part is available).

DT. My car has been sputtering Put, Putting hesitated surging and loses power and just cuts off, after letting sit for a while it cranks back it may run good sometimes or it just keeps cutting off. sometimes push gas pedal to the floor most of the time it won't go pass 60 or 70 mph. (Cont) on back

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

When all this started my front end started shaking and making a loud noise like the whole front end is falling off mostly when then car gets to 60 mph or when I get ready to come to a stop my car has been put on a machine the machine showed I needed a battery & a airflow sensor both have been replaced and I'm still having these problems.
