Re: P.T. Cruiser, 2002, ^{NATIONAL HIGHWAY TRAFFIC SAFETY ADMIN.}

Dear Sir,

Have had my Chrysler P.T. Cruiser in KeyStone Chrysler at least 6 times or recall to be fixed. Last time, Ed & flow, service advisors said auto transmission could not be fixed.

I paid \$24,730 for this auto. Am 61 years old and figured this to be my last new car. That was in July 20, 2002. Now P.T. Cruisers are selling for 11,950⁰⁰

This car jumps at stop lights and the transmission shifts with jerks from 1st to third. It has done this since about a week after brought it home. Have had auto writer and love the bench seats in front and is low to ground so I can get in & out easily

But, I hate any company who rips off older women. The auto has 18,000 miles on it. Tell Chrysler to fix it or refund my money. Thanks

Telo
