Dear sirs ,

With reference to ODI # 10135961 , I am forwarding the following pictures taken of my 1995 Mercury Villager with the odometer reading of approx 153000 miles to date (vin # 4M2DVL[Redacted]) , which had a fire under the hood in the engine compartment . Upon complaining to Ford Motor Company , they have responded to me by a written paper mail that they can not be of any help to me because there was no associated recall of any sort with the above vin # vehicle .

Please help me resolve this . Thank you in advance .

Sincerely yours ,
