[REDACTED]
Youngsville, NY [REDACTED]

Dear [REDACTED]

Thank you for your correspondence dated September 7, 2005, concerning your nephew's Honda CBR600RR. The National Highway Traffic Safety Administration (NHTSA) received your correspondence on September 15, 2005. It was referred to the Office of Defects Investigation (ODI) and received on September 20, 2005. Due to limited resources we were not able to respond to you in a timelier manner. We regret any inconvenience our delay may have caused you.

The National Highway Traffic Safety Administration (NHTSA) is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We have reviewed our database in an effort to identify whether a safety defect trend exists with regard to the rear rim problem in 2005 Honda motorcycles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. The information you provided has been entered into our database. It will be considered with other reports to identify any safety defect trends that may require our attention. Additionally, to have a more complete record of your nephew's motorcycle, please complete the enclosed vehicle owner's questionnaire (VOQ) and provide the model year and vehicle identification number (VIN).

You can contact our toll-free DOT Auto Safety Hotline (Hotline) at 1-888-DASH-2-DOT (1-888-327-4236). One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A DOT Hotline representative will return your call.

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

If further assistance is needed, please contact me at (202) 366-5211.

Sincerely,

Alberto A. Jimenez, Chief
Correspondence Research Division
