Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(es). Tire only had about 5000 miles on it
After the tire failed, I found out from friends that had the same problem with these tires. I always make sure that the tires have the proper pressure. I also noticed one of the other tires of the same make on my truck was starting to bubble on the sidewall near the rim. It was only about 4 months old. Purchase date of the failed tire was 8/16/03.
