Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I had the voltage regulator replaced as advised by dealer but air bag light is still on! Dealer no claims sensor is bad due to voltage regulator.

Hyundai factory indicated my vehicle was not one of recalls however, this problem I have is the same as recall description

* I purchased auto at Turnersville Auto but took auto to Sport Hyundai for the air bag service

Sport Hyundai first tightened connections then said it was voltage regulator, when lit. came back on + then said sensor was bad after voltage reg. replaced.
