On 10/17/03 I was involved in
an auto wreck. I had a
1992 Isuzu Amigo I wasn't
the original owner. I purchased
the auto in 2001. I never got
a recall on the brakes. I
currently have a 1998 Isuzu
Amigo I purchased 11/2003.
How can I further investigate
my crash. The vehicle was
totaled & my ribs broken I had
to have an expensive facial
surgery. I lost 6 weeks
at work and now I have high
auto insurance. So I need to
get an attorney to investigate
Isuzu?
