Watchung, N.J.

NVS-216 et  
Ref. No. 10144298

Dear 

Thank you for your correspondence dated November 7, 2005, concerning a problem you encountered with your 2002 GMC Yukon vehicle. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation (ODI) received your correspondence on November 30, 2005.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect or recall inadequacy is warranted.

Chapter 301 of Title 49 of the United States Code (U.S.C.) requires a manufacturer of motor vehicles or items of motor vehicle equipment that contain a defect relating to motor vehicle safety or fail to comply with a Federal Motor Vehicle Safety Standard to remedy the defect or noncompliance without charge. However, our statute does not require manufacturers to reimburse owners for costs associated with repair or corrective action performed prior to initiating a recall or for any additional costs associated with a safety recall (e.g., lost wages while the vehicle is being repaired, car rentals, repairs not performed by an authorized dealership, damage caused by the defect, etc.). Nor does the statute authorize the Federal government to reimburse vehicle owners for any costs associated with safety recalls or assist vehicle owners in obtaining reimbursements for costs associated with an alleged defect. Although not required by

DOT AUTO SAFETY HOTLINE  
888-DASH-2-DOT  
888-327-4236

the statute, under certain conditions, manufacturers may reimburse vehicle owners for recall work completed prior to receiving a recall notice.

You can contact our toll-free Vehicle Safety Hotline (Hotline) at 1-888-327-4236. One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

If further assistance is needed, please contact Mr. Michael J. Jordan, Safety Defects Program Assistant, Correspondence Research Division, Office of Defects Investigation, at (202) 493-0576.

Sincerely,

Alberto A. Jimenez, Chief  
Correspondence Research Division
