Subject: Brake Pump Recall
VIN: YV1VS255 [REDACTED]

Dear Volvo,

On September 24, 2003, I was in a head-on collision involving my 2000 Volvo S40 and 1991 Dodge Minivan. Although it was raining, there was plenty of stopping distance to avoid this crash; my car would not stop with normal pressure applied to the brakes. The tires did not hydroplane at any point during the attempt to stop. The vehicle just simply would not stop without literally standing on the brakes.

Six months later, I received notice that you decided to recall the brake pump for this very reason. It has recently come to my attention that I have the right to reimbursement for damages incurred prior to notification of that recall.

Attached is the police report and collision claim. Please provide reimbursement for all costs incurred. Please note that prior to the part being replaced by the newer pump design, stopping required literal standing on the brakes on ice & inclement weather. I stopped driving that vehicle in the winter, because it was not safe.

Sincerely,
[REDACTED]

Volvo Cars of North America, LLC

IMPORTANT RECALL NOTICE

YV1VS2552 [REDACTED]

006829

ST CLR SHORES, MI [REDACTED]

March 2004

Dear Volvo Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

The reason for this campaign:

Volvo Cars North America, LLC (Volvo) has decided that a defect related to motor vehicle safety exists in certain model year 2000 S40 and V40 vehicles. Under certain circumstances, water may enter the electrical brake vacuum pump, causing the pump to not function. This will require more brake force to stop the vehicle. However, this is primarily noticed at cold start. This limited braking power can affect the vehicle's stopping performance, increasing the risk of a crash.

The corrective action will be to replace the vacuum pump with a new pump of a modified design. This new pump will be placed in a new location to prevent water intrusion. This will be performed at no charge.

What you need to do:

Please call your authorized Volvo retailer as soon as possible to schedule an appointment. This procedure will be completed at no cost and will take approximately 2 hours. Due to service scheduling, your Volvo retailer may require your vehicle for a longer period of time.

If you previously paid to have this corrective action performed, Volvo will honor your receipt with a refund. Please contact your Volvo retailer for details.

Please contact:

If you have any questions, please contact your Volvo retailer. If your retailer is unable to answer your questions, please contact Volvo Customer Care at 7 Volvo Drive Rockleigh, New Jersey 07647 or phone 1-800-458-1552, Monday through Friday, 8:30 A.M. to 7:00 P.M. Eastern Time. You may also e-mail us at customercare@volvocars.com.

We have advised the National Highway Traffic Safety Administration (NHTSA) that we are conducting this recall. If you are unable to have this procedure performed without charge and within a reasonable period of time, you may contact the NHTSA Auto Safety Hotline at 1-888-327-4236. The address is 400 Seventh Street SW, Washington, DC 20590.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days. Lessor means a person or entity that is the owner, as reflected on the vehicle title, of any five or more leased vehicles.

Sincerely,

Manager, Customer Relations

Please note: According to Insurance Institute for Highway Safety President Brian O'Neill, "It is very important that owners of vehicles in which safety-related problems have been identified take those vehicles back to dealerships as soon as they receive notice of a recall or service campaign. Such notices should not be ignored or taken lightly. There is just no reason to drive around in a vehicle with a safety-related defect."
