I was traveling to Cleveland Hopkins airport on Rte. 80 West at about 3:20 pm when our car came upon a broken drive shaft in the road and we went right over it. It broke a pan under the car and all the transmission fluid poured out as we pulled over to the side of the highway. The drive shaft was from a truck just up ahead, pulled over on the side of the road. The truck driver came down and helped us by letting us use his cell phone to call the rental car company and the police.
