The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

We contacted Chevrolet when problem first occurred, they stated there is a recall on 2001, 1500, and there maybe one coming out on the 3500 so we waited. When recently calling Chevrolet about a recall, they informed us not enough people buy the 3500 for there to be enough complaints to warrant a recall. We took the truck to Cordia Chevrolet to have the emergency brake recall taken care of. They hooked the truck to their computer to find that both front ABS speed sensors were faulty. We paid to have them replaced seeing that it has been an ongoing problem since March 2005.
