[REDACTED]
Charlotte, NC [REDACTED]

Dear [REDACTED]

Thank you for your correspondence dated January 19, 2005, concerning repair work performed on your vehicle by PEP BOYS. Your correspondence was received by the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation (ODI) on January 25, 2006. Due to limited resources we were not able to respond to you in a more timely manner. We regret any inconvenience our delay may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We sympathize with you concerning the service and poor repair work performed on your vehicle; however, this does not fall under our jurisdiction. If you have not done so, you may consider contacting your local Consumer Protection Agency and Office of the Attorney General regarding your problem and your rights. Please continue to work with the North Carolina Better Business Bureau regarding your problem.

You can contact our toll-free Vehicle Safety Hotline (Hotline) at 1-888-327-4236. One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivog>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

Alberto A. Jimenez, Chief
Correspondence Research Division
