Division of General Motors Corporation

February 2006

Dear GMC Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

**Reason For This Recall:** General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2002 model year GMC Yukon vehicles that have, at any time, been registered in severe corrosion areas. These vehicles may have a condition permitting corrosion to occur between the front hub/bearing assembly and the wheel speed sensor. If the brakes are applied while the vehicle is traveling at a speed of greater than 3 mph but less than 10 mph, the corrosion may cause an unwanted anti-lock brake system (ABS) activation. If this condition occurred where stopping distance is limited, a crash could occur.

**What Will Be Done:** Your GMC dealer will inspect, clean, and treat the affected area. In some cases, the front wheel speed sensor may require replacement. This service will be performed for you at no charge.

**How Long Will The Repair Take?** It is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 1 hour because of service scheduling requirements.

**Contacting Your Dealer:** To limit any possible inconvenience, we recommend that you contact your GMC dealer as soon as possible to schedule an appointment for this repair. Should your GMC dealer be unable to schedule a service date within a reasonable time, you should contact the GMC Customer Assistance Center between the hours of 8:00 AM and 11:00 PM, EST, Monday through Friday. They can be reached at 1.888.996.9483. The deaf, hearing impaired, or speech impaired should call Text Telephone (TTY), 1.800.462.8583.

If, after contacting the GMC Customer Assistance Center, you are still not satisfied that we have done our best to remedy this condition without charge and within a reasonable time, you may wish to write the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, SW, Washington, DC 40690; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

**Customer Reply Form:** The enclosed customer reply form identifies your vehicle. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you no longer own this vehicle, please let us know by completing the form and mailing it back to us.

**Reimbursement:** The enclosed form explains what reimbursement is available and how to request reimbursement if you have paid for repairs for the recall condition.
