Dear Ford,

2-7-06

I have become aware of a matter yet one more time via stories on CNN regarding the Crown Victoria gas tanks.

I have a 1998 Crown Victoria with 36,000 miles on it, VIN: 2FAFP74W9WX [REDACTED]

I want my car fixed and I do not think it should cost me anything. You should be ashamed of yourselves putting yet one more car out there with a flaw that was fixable and has resulted in injury and death. How dare you.

I want you to contact me and to fix my car with the retrofit you are putting on Police cars. Period.

If you do not fix my car, I'll sell it and get a GM car like I always used to buy.

Thank You and please contact me.
