Briarwood, NY [REDACTED]

NVS-216 mrc
Ref No. 10151910

Dear [REDACTED]

Thank you for your correspondence dated January 9, 2006, concerning your Model Year (MY) 2002 Ford Explorer vehicle. Your correspondence was forwarded to The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation by the New York Office of the Attorney General. It was received on February 21, 2006. We regret any inconvenience our delay in responding may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to determine whether an investigation into a possible safety defect or recall inadequacy is warranted.

We have reviewed our database in an effort to identify whether a safety defect trend exists with regard to crack in rear window in MY 2002 Ford Explorer vehicles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. The information you provided has been entered into our database. It will be considered with other reports to identify any safety defect trends that may require our attention.

The Ford Motor company (Ford) conducted a safety improvement campaign (NHTSA recall file No. 01I-010000, summary enclosed) regarding the lift gate glass bracket. Please contact Ford at the number provided in the summary to determine if your vehicle is among those that require the corrective action.

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

You can contact our toll-free Vehicle Safety Hotline (Hotline) at 1-888-DASH-2-DOT (1-888-327-4236). One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/voq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

Alberto A. Jimenez, Chief
