**Re: Recall request on 1999 Infiniti I30 hood shocks**

Dear Sir or Madam:

I would like to initiate a recall on the captioned automobile. Per [redacted] Infiniti dealership, the Infiniti Q45 has a hood shock failure problem and obviously the I30 does too. Therefore, after almost having my finger crushed, when the hood shocks failed on my 1999 Infiniti I30; I believe a recall is in order before someone loses their fingers or worse.

I did contact Infiniti USA and asked them to send me replacement hood shock but they declined, because, no one got hurt and "this particular car and accessory is not under recall." I do not want to continue using a stick to hold up my hood, for the duration I own my car, hopefully another 5 years plus. So please send me the paperwork necessary to initiate a recall.

Sincerely,

[redacted]

Dallas, Texas
