To Whom It May Concern:

My name is [REDACTED] I'm writing in behalf of my father, [REDACTED] he's the owner of the Daewoo Nubira, to file a complaint against the Daewoo Motor America Inc. For the reason that they failed to remedy the recall on my car. The problem is with the Camshaft Position (CMP) Sensor that was installed in the car.

We received the letter on June 06, 2006. And on June 07, 2006 I called the nearest Authorized Service center that is close to our home and that is the Tracy Chevrolet as per Daewoo website. But they said they're not accepting Daewoo's recall. I also tried calling the Daewoo Customer Service Center Toll free. I left a message twice. First on 06-08-06 and second on 06-12-06 and up to now we did not hear anything from them.

So hopefully this problem will be resolved as soon as possible. My father is already old with no work. He cannot afford to buy a new car or even buy a used car. He's been driving the car with a check engine light for a while now. I am just concern for the safety of my father.
