Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I'm not sure it serves any purpose, but I will elaborate on the incident. It was a very hot day, I was on my way to an appointment. I stopped at a stoplight and when the light changed, my car rolled into the intersection and died. Eventually, I managed to get it out of the middle of the intersection and waited for the tow trucks. Fortunately, I had a cell phone and the tow truck only took about 15 minutes to get there. My vehicle was towed to the garage I regularly use and has not run since.
