AURORA, MN

NATIONAL HWY TRAFFIC SAFETY ADMIN

400 Seventh ST S.W

WASHINGTON, D.C 20590

DEAR SIRS;

EVEN SINCE I HAVE OWNED THIS 2001 DAEWOO LANOS, I HAVE NEVER SEEN SO MANY RECALLS IN SUCH A SHORT TIME!

I HAD PARKED MY DAEWOO IN THE GARAGE FOR THE WINTER AND USED ONE OF MY OTHER VEHICLES FOR THE WINTER.

COME SPRING AND DECIDED TO USE MY DAEWOO AGAIN I COULDN'T GET IT STARTED BECAUSE THE BATTERY WAS DEAD.

I WENT TO CAR QUEST TO PICK UP A NEW BATTERY AND INSTALLED IT AND WHEN I TURNED THE KEY ON, SMOKE WAS COMING OUT FROM UNDER THE HOOD!

THE ONLY DAEWOO DEALER OR REPAIR SHOP WE HAVE IN THIS AREA IS IN DULUTH MN (65 MILES FROM AURORA)

Maria  
8/14/06

I RENTED A DOLLY & TOOK IT  
TO THE REPAIR SHOP WHERE IT  
STILL SITS TODAY,

DULUTH DODGE - 4755 MILLER TRUNK

## **Safety Recall Notice Lanos, Nubira, Leganza**

### **SECOND NOTICE**

Dear Lanos, Nubira, and Leganza Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. We are writing as a follow-up to an earlier communication regarding this important subject. Our records indicate that you have not yet made your Daewoo vehicle available to your Daewoo Dealer or Authorized Service Center (ASC) allowing them to perform this important inspection procedure.

Daewoo has decided that a defect which relates to motor vehicle safety exists in certain Lanos, Nubira and Leganza model vehicles.

The problem is with the Camshaft Position (CMP) Sensor that may be installed in your Daewoo vehicle. The CMP sensor sends a CMP sensor signal to the engine control module (ECM). The ECM uses this signal as "sync pulse" to trigger the fuel injectors in the proper sequence. In rare instances, due to a possible crack in the C2 capacitor attached to the CMP Sensor PC board, CMP Sensor may malfunction, which will cause the check engine warning light in your instrument panel to illuminate. Additionally, the Camshaft Position Sensor and wiring may melt resulting in a burning smell and/or visible smoke and possibly an underhood fire.

If you have taken your Daewoo in for service since October 2001 because the Check Engine Warning Light was illuminated on your instrument panel, contact your Daewoo Dealer or Authorized Service Center (ASC) immediately to arrange for your vehicle to be inspected, because your CMP Sensor may have been replaced with one that is subject to this recall. Your dealer or ASC will inspect your vehicle and, if your CMP Sensor needs to be replaced, will replace the sensor and add an in-line fuse to the CMP Sensor wiring. If you are not the first owner of your Daewoo vehicle and/or are not sure if your vehicle has been serviced because of an illuminated Check Engine Warning Light, you should also immediately contact your Daewoo Dealer or Authorized Service Center (ASC) to arrange for your vehicle to be inspected.

If your vehicle has not been serviced since October of 2001 to address an illuminated Check Engine Light, or your vehicle's VIN\* is not within the following VIN range, your vehicle is not subject to this recall campaign, and you need take no further action at this

If you are the owner of the subject vehicle, but have leased it to another person, you are required by federal law to forward a copy of this notice to your lessee by first class mail within ten days of your receipt of this letter. See 49 C.F.R. 577.7(a)(2)(iv).

If you believe that Daewoo has failed or is unable to remedy the defect described in this letter without charge within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 or call the toll-free Vehicle Safety Hotline at (888) 327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Because your safety is very important to Daewoo, we urge you to have your vehicle inspected and repaired immediately. Your Daewoo Dealer or Authorized Service Center (ASC) inspect your vehicle and determine if it is involved in this recall. If your Daewoo is involved in this recall, your dealer will replace the Camshaft Position Sensor and add an in-line fuse to the Camshaft Position Sensor wiring.

This service will be performed for you at no charge and should take about one hour. Thus, to minimize waiting time, you are advised to make an appointment with your Daewoo dealer or Authorized Service Center (ASC), in advance. For assistance in locating a Daewoo Dealer or Authorized Service Center (ASC) in your area, please visit the Daewoo website at [www.daewoous.com](http://www.daewoous.com) and click on the "Service/Part Locator" link. Additionally, the Daewoo website provides information on other recall actions that may be applicable to your Daewoo vehicle. Simply click on the "Owners" link and follow the prompts.

If, however you take your vehicle to your Daewoo dealer or Authorized Service Center (ASC) on the scheduled service date and you have a problem with obtaining the corrective service on that date, please contact the Daewoo Customer Assistance Center toll-free at (877) 362-1234, option 6. A Daewoo representative will assist you with arranging prompt service for your vehicle.

The enclosed Owner Reply Card identifies your vehicle. Presenting the card at the time of your service will assist your Daewoo Dealer in completing this procedure in the shortest time possible. If you have sold or traded your vehicle, please let us know by completing the enclosed postage-paid reply card and returning it to us.

We apologize for any inconvenience this may cause you. We have taken this initiative in the interest of your safety and continued satisfaction with your Daewoo vehicle.

Sincerely,

Daewoo Customer Relations Department

### 2001 DAEWOO LANOS ENGINE AND ENGINE COOLING

#### Recall Date:

AUG 06, 2004

#### Summary:

ON CERTAIN PASSENGER VEHICLES, THE CAMSHAFT POSITION SENSOR MAY MELT RESULTING IN A BURNING SMELL AND VISIBLE SMOKE, WHICH MAY SUBSEQUENTLY LEAD TO THE MELTING OF THE CAMSHAFT COVER AND THE CAMSHAFT POSITION SENSOR WIRE HARNESS.

#### Consequence:

THIS COULD POSSIBLY CAUSE AN UNDERHOOD FIRE.

#### Remedy:

DEALERS WILL REPLACE THE CAMSHAFT POSITION SENSORS AND INSTALL AN ADDITIONAL FUSE. OWNERS SHOULD CONTACT DAEWOO PUERTO RICO AT 1-877-362-1234 OPTION 6.

#### Potential Units Affected:

4305

#### Notes:
