Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

The National Highway Traffic Safety Administration has been insisting that car manufacture to install Air safety bags in automobiles for years. The seatbelt is warranted for as long as you own the automobile but the air bags are not warranted after the auto normal warranty. The average person will not have the funding to fix the air bags, which will cost me approximately \$900.00 to fix. The Honda car I have has only two air bags. In the future more people will be affected because failure my get worse. I fill that the air bags should have the same warranty as the seat belts.

Mario Andretti 's Real Information On Safety. Here's what I want you to know: Always use your seat belts, front and rear. All new cars and trucks have at least two front air bag "supplemental" air bags are not meant to be used without belts, so buckle up. I have talked by phone to Honda Motor Company and the Honda dealer that sold me the car. They were of no help in fixing the air bags at the cost stated.
