N

Narrative Description of Incident(S), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e. parts repaired or replaced (and if old part is available).

DT*: THE CONTACT STATED WHILE DRIVING 5 MPH DURING NORMAL ROAD CONDITIONS IN A SCHOOL ZONE, THE GAS LIGHT ILLUMINATED AND A GAS ODOR FUMIGATED THE VEHICLE. IT WAS TAKEN TO THE DEALER, WHO DETERMINED THAT THERE WAS A CRACK IN THE GAS TANK WHICH LEAKED VAPORS AND THE GAS TANK NEEDED TO BE REPLACED. NO REPAIRS WERE MADE.

Gmc states that due to the mileage on the vehicle - this is normal wear and tear - I have never heard of having to have a gas tank replaced in a car - GM also states that there is no need for a recall at this time especially since there is no safety issue. Since when is gas vapors + gas (flammable) not dangerous over

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

GM-specialist that I spoke with on the phone told me that yall - (NHTSA) were the ones that were responsible for determining if a recall is issued - When I was on your website - there were numerous complaints about the 2003 Envoy's gas tank - There is obviously a manufacturers defect - I don't think the consumer should be responsible for this expense - Routine maintenance ~~is~~ and normal wear and tear is understandable - but a gas tank - Please help -

ATTACH ADDITIONAL SHEETS IF NECESSARY
