Dear Sir,

VIN # 1N4AL11D [REDACTED]

Your notice for recall on 2003 Nissan Altima vehicles equipped with the 2.5 liter engine arrived two days after I had taken my car to Coral Springs Auto Mall because the Service Engine Soon light had come on.

According to the dealer the Engine Diagnostics showed that the throttle body assembly was defective and we had the chamber assembly replaced.

Now we are told there is no relationship between your recall to reprogram the electronic control module and the crank angle sensor and the throttle body assembly, which was defective.

It is my contention that the electrical problem between the engine sensor and the electronic control modular caused the throttle assembly to become defective and for this reason it needed to be replaced. I am requesting reimbursement for the repair. I've attached my receipt form Coral Springs Auto Mall.

Sincerely, [REDACTED]

10/15/06

Dear Nissan owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in some 2003 model year Nissan Altima and Sentra vehicles equipped with the 2.5 liter engine. Our records indicate that you own the Nissan vehicle identified by the Vehicle Identification Number on the cover of this notice.

Reason for Recall

On some 2003 model year Nissan Altima and Sentra vehicles equipped with the 2.5 liter engine, there is a possibility that the engine might stop running while being driven due to an electrical problem between the crank angle sensor and the Electronic Control Module (engine computer). This may also result in the "Service Engine Soon" light coming on. If the engine stops running while driving, this could result in a crash without warning.

What Nissan Will Do

In order to prevent this incident from occurring, your Nissan dealer will reprogram the Electronic Control Module. This free service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule, or parts availability.

What You Should Do

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. **If the "Service Engine Soon" light comes on, contact your dealer as soon as possible to have your vehicle inspected.**

Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer. If the dealer fails, or is unable to make the necessary repairs free of charge, you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261). You may also contact the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

If you have paid to have a crank position sensor replaced prior to this campaign, you may be eligible for reimbursement of the related expense. Contact Nissan Consumer Affairs at the numbers listed above for additional information on how to obtain a reimbursement.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.
