Claim #: 6282005

Tire: LT235/85R16, Amerl Trac, DOT: AD0R1P64302

Dear [REDACTED]

We have completed the technical examination of the tire.

The examination revealed that your tire experienced impact damage. The tire may not actually fail at the time of impact. Impacts can damage the internal structure of the tire and it may be many miles before the damage becomes visible.

The examination did not reveal any material and / or workmanship related conditions to explain the failure of the tire.

Since service related conditions are beyond the control of the manufacturer, we must, therefore, respectfully decline your claim. Please refer to the enclosed Limited Warranty and Adjustment Policy brochure under the topic what is not covered. Additionally, for your reference, we have also included a copy of the RMA Motorist Tire Care and Safety Guide.

The subject tire will be held for 30 days from the date of this letter and then disposed. Should you have any questions, contact us at (800) 266 - 5139

Sincerely,

Warranty Claim Department
