I called the Nissan dealer here in Colorado Springs, Colorado at 4:40 p.m. today concerning this recall. I explained that I do not allow children of any age to ride in my car, and "Ken" in the service department said that I did not need to have this repair done since no child seats would ever be allowed in my car. My car was purchased at Woodmen Nissan, 6840 Vincent Drive, Colorado Springs, CO, 80918.

Telephone: 719-234-1000.

After a recall in April, 2006 concerning the heating system for the front seats, I have to ask if Nissan can be trusted for dependable, safe cars.

Yours truly,

Dear Nissan Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that some 2005 model year Nissan Maxima vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) 225 – Child Restraint Anchorage Systems.

Reason for Recall

FMVSS 225 specifies certain requirements for child seat anchorage systems in vehicles. The lower anchorage brackets in the rear seats in some Maxima vehicles do not meet the location requirement in this standard. This may cause difficulty in attaching some child seats to these brackets. If a child seat is not secured, there is an increased risk of injury in a crash. All other requirements under FMVSS 225 and other standards are met.

What Nissan Will Do

Your Nissan dealer will modify the lower anchorage brackets to ensure that the standard is met.
