

DMA Consumer Complaint

2006 NOV 21 AM 8:40

Attention NH TSA 10174334

I purchased a 1996 Geo Metro which is 10 year old as of now. Since I've had this car. Everything has started to rust underneath

I really didn't think too much of it. Until, I'm driving home from work and the frame rusted and broke. Just like that. It was the enter-front frame. I could of went through the window if I was driving fast or a car could of hit me
