Dear [REDACTED]

Thank you for your correspondence dated December 23, 2006, concerning tire size 195/70HR14, manufactured by Continental Tire North America Inc. Your correspondence was received by the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation on January 12, 2007. We regret any inconvenience our delay in responding may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to determine whether an investigation into a possible safety defect or safety defect recall adequacy is warranted.

A review of our database relative to failures of tire size 195/70HR14, manufactured by Continental Tire North America Inc., revealed insufficient evidence to warrant opening a safety defect investigation at this time. The information you provided has been entered into our database and will be considered with future reports to identify any safety defect trends that may require our attention.

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

Regarding your request for reimbursement for damages caused by the tire failure, please be aware this does not fall under our jurisdiction. If you have not done so, you may consider contacting your local Consumer Protection Agency, Better Business Bureau, or the California Office of the Attorney General regarding your request.

You can contact our toll-free NHTSA Vehicle Safety Hotline (Hotline) at 1-888-DASH-2-DOT (1-888-327-4236). One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. A Monthly Defect Report is available on that site that provides a listing of current investigations. Enter "Monthly Defect Report" in the **NHTSA Search** capability to locate the reports. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety-related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

Cynthia Glass, Acting Chief
Correspondence Research Division
Office of Defects Investigation
Enforcement
