NVS-216 lob  
Ref. No. 10181592

Dear [REDACTED]

Thank you for your correspondence dated January 15, 2007, concerning the illumination of the speedometer on your Model Year (MY) 2005 Chrysler PT Cruiser. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation (ODI) received your correspondence on January 23, 2007. We regret any inconvenience our delay in responding may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect is warranted.

A review of our database relative to speedometer illumination in MY 2005 Chrysler PT Cruiser trucks revealed insufficient evidence to warrant opening a safety defect investigation at this time. The information you provided has been entered into our database and is being forwarded to ODI's Defects Assessment Division to be considered with future reports to identify any safety defect trends that may require our attention.

DOT AUTO SAFETY HOTLINE  
888-DASH-2-DOT  
888-327-4236

You can contact our toll-free NHTSA Vehicle Safety Hotline (Hotline) at 1-888-327-4236. One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. A Monthly Defect Report is available on that site that provides a listing of current investigations. Enter "Monthly Defect Report" in the NHTSA Search capability to locate the reports. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form allows vehicle owners to report safety-related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

Cynthia Glass, Acting Chief  
Correspondence Research Division  
Office of Defects Investigation  
Enforcement
