Thank you very much,
[Redacted]

I have a 2002 altima with 235/40z 18 from nexxon.

I have felt like this tire just isnt ment for the car and recently had a blow out on one tie. again tonight while driving a had a second blowout BUT this time it caused me to jump an island and blew 2 more tires. Is this car safe and are these tires/manufacture ok?

Thanks,
[Redacted]
