The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Fuel rail was leaking fuel at the end of rail where a pipe joins the 2 rails together. The fuel leaked on manifold and did start on fire but very little and I put out very quick. If my wife was driving down the road it would have burnt up. It has been repaired but I still have the parts
