**Subject:** recall

I just came accross information regarding a recall which I was not notified about and wish to be advised as to what my next steps should be. The recall is # **85V059000** which is about seatbelts for my 1978 MGB. The recall was issued in 1985, and I have owned the car since 1978 and have always been frustrated about the operation of the belts. I came across the report when I was looking for replacement parts. Thank you for looking into this.
