I just emailed my concern about stalling while driving. Idles rough. I was looking thru other complaints and found someone else that had or still has the same problem on the 2004 model. I feel a recall should be done on this matter before someone is injured!

ODI ID NUMBER 10102249  
ODI ID Number 10126616 Same problem  
ODI ID Number 10138986  
ODI ID Number 10163025

Counting my complain this makes 5. I feel a recall is due now! Please advise!
