Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I have had the bike to two different dealerships. The one who sold me the bike said it was ok to ride but when I got the bike home and unloaded it failed to start because the spark plugs were fouled. Took bike to local dealership changed plugs they had it for about 4 days but about fifty miles on it said the only thing that happened was when it was cold it would stumble and load up but after a 1/2 mile it was ok. So they said to come and get it. I picked it up 05/25/07 @ 9:30 rode bike most of the day it stumbled several times and shut off 3 times when I came to a stop.
