Dear ██████████:

Thank you for your correspondence dated April 24, 2007, concerning the recall for your Dometic refrigerator. Your correspondence was received the National Highway Traffic Safety Administration's (NHTSA) Office of Defect Investigation on May 10, 2007. We regret any inconvenience our delay in responding may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. A recent review of our database relative to problems associated with NHTSA Recall Campaign No. 06E-076 revealed insufficient evidence to warrant opening an investigation into the inadequacy of the recall campaign at this time. However, the information you provided has been entered into our database and will be reviewed with other reports to identify any inadequacies of the NHTSA Recall Campaign No. 06E-076 that may require our attention.

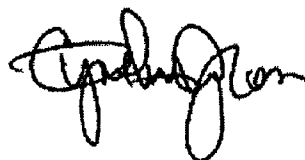

Additionally, Chapter 301 of Title 49 of the United States Code (U.S.C.) requires a manufacturer of motor vehicles or items of motor vehicle equipment that contain a defect relating to motor vehicle safety or fail to comply with a Federal Motor Vehicle Safety Standard, to remedy the defect or noncompliance without charge. Your report has been forwarded to the ODI's Recall Management Division for their review. If you have any questions regarding this matter, please contact Mr. Richard Willard, Consumer Safety Officer at 1-800-986-9678 ext. 66544.
