Subject: Recall Question

Hello Cynthia,

Could you please see if you could help answer this consumer's email question at your earliest convenience?

[REDACTED]

Thank you very much,
Dameko America

I have a 2002 Kia Sportage which has recently been recalled due to the engine cooling fan. Prior to the recall notice, the fan had already broken and one of the blades went through my radiator, since it wasn't caught in time is Kia responsible for fixing all affected components (radiator, hose, etc.) or just replacing the fan?

Thank you!!
