Narrative Description of Incident(S), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).

TL*THE CONTACT OWNS A 2006 PORSCHE CAYENNE. THE ENGINE LIGHT ILLUMINATED WHILE DRIVING. THE VEHICLE WAS TAKEN TO THE DEALER WHO DISCOVERED THAT ONE OF THE WIRES IN THE STORAGE COMPARTMENT WAS RIPPED. THE CONTACT WAS CHARGED \$770 FOR WIRES THAT HE STATED WERE BARE WIRES ON BOTH SIDES OF THE NON-INSULATED STORAGE COMPARTMENT. THE PURCHASE DATE AND POWERTRAIN WERE UNKNOWN. THE CURRENT AND FAILURE MILEAGES WERE 48,388.

locked.

* Right hand side wire gas tank is.
The bare wire's are a serious risk of
crossing tire next to gas tank very dangerous
MANUFACTURE FAULT NOT TO INJURE

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Spacious and easy to use.

Luggage compartment.

The new Cayenne models use power and performance for more than just driving pleasure. In addition to the spacious passenger area, all three models have a generously proportioned and variable rear luggage compartment. The tailgate comes with a power-closing function as standard. A Power Tailgate is available as an option, offering a programmable height setting and push-button opening and closing.

The luggage compartment has more than enough space for up to four large suitcases: a total volume of approximately 19.1 cu. ft.

Total load capacity is 1,731 lbs. in the new Cayenne (based on manual transmission), 1,841 lbs. in the new Cayenne S and up to 1,598 lbs. in the new Cayenne Turbo. The cargo space floor is completely flat and the tailgate sill is low.

Even when the Cayenne is heavily loaded down, the self-leveling

air suspension on the new Cayenne Turbo (optional on Cayenne and Cayenne S) maintains a constant ground clearance at front and rear.

The Air-Suspension Package also includes ride-height adjustment, enabling the car to be lowered by approximately 2.12 inches below the normal ride level for easier loading of heavy items. When moving off, the suspension automatically reverts to the standard ride-height setting (Normal Level).

The rear-seat backrest features asymmetric split folding (40%/60%) and can be combined with a load-through feature with an optional (no-cost) ski bag. The load-through feature will also fit a snowboard. When the backrest is fully folded, the loadspace expands to as much as 62.5 cu. ft. Even when loaded to the maximum weight, each Cayenne model

remains agile, responsive and easy to control.

Items can be stored out of view and protected from the sun using a retractable cover with detachable storage cassette.

Two additional storage spaces (one on vehicles with four-zone air conditioning) are discreetly concealed behind the side trim panels in the luggage compartment (volume may vary depending on optional equipment).
