Dear [REDACTED]:

Thank you for your correspondence dated July 26, 2007, concerning your model year (MY) 2007 Toyota Prius. Your correspondence was received by the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation on August 11, 2007.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to determine whether an investigation into a possible safety defect or safety defect recall adequacy is warranted.

We have reviewed our database in an effort to identify whether a safety defect trend exists with regard to the brake system in MY 2007 Toyota Prius vehicles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. The information you provided has been entered into our database. It will be considered with future reports to identify any safety defect trends that may require our attention.

If you have not done so, you may consider asking your dealership for a meeting with the district manager regarding your concerns about the Prius brakes.

Should you encounter a safety-related problem with a motor vehicle or item of motor vehicle equipment in the future, you can complete an electronic Vehicle Owner's Questionnaire online at <http://www.nhtsa.dot.gov/ivoq>. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

A handwritten signature in black ink, appearing to read 'K. DeMeter', followed by a long horizontal line extending to the right.

Kathleen C. DeMeter, Director
Office of Defects Investigation
