The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

While I was at work, I received a call from a lady stating that outside the clinic there was a white F150 catching on fire. Immediately I ran outside and unfortunately it was my truck. We called the maintenance man from the clinic and rapidly he grabbed the fire extinguishers, he opened the hood and the flames were coming out. I called the fire department but it took them a while to get here. The next day I called a mechanic and he said that those kind of trucks had that problem. That if the fire was on the left side it was probably that problem, so I started searching on the internet and found that my truck has a recall. I informed the Ford Motor Company and they said they will mail letter within 7-10 days. ATTACH ADDITIONAL SHEETS IF NECESSARY. Today 8/14/07 haven't received it.

The evidence that I have that
the truck caught on fire by itself is
the video from my job. The camera
that they have for the parking lot
captured everything. If you can please
help me, I am very concerned about
the truck because its my only way of
transportation. Any thing else you need
please contact me [REDACTED]

Thank You,
[REDACTED]

(I just towed the truck to a house
but havent moved anything.)
