Will prove and show they are wrong, ymotor
Car Concept in an attempt to hide and
conceal the facts that the 2005 Ford
Expedition they sold us was not new
and has been seriously damaged in an
accident or some way.

The I.D. number on the enclosed document
is 1fmpu16565L [REDACTED] However the
real true number is 1fmpu16545L [REDACTED]

RE: motor Car Concept

Our money Back is full and we want
to prosecute this case to the full extent
of the law.

The Roof of this vehicle shakes and
feels as if the wind will some day break
away the roof.

This vehicle is dangerous, its shocks and
electrify you at time when heavenly
waters or wet.

It is against the law in Florida
to sell a car new to someone
when its not new and been seriously
damaged. its against the law to hide
the damage used facts.

We where swindled and cheated out of
almost thirty thousand dollars cash
from a mortgage loan. Please help
us. Thanks.
