Doylestown, PA

Dear

Thank you for your correspondence dated September 2, 2007, concerning the problems you encountered with your model year (MY) 2000 Volvo V40 vehicle. Your correspondence was received by the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation on September 13, 2007.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect is warranted.

A review of our database relative to problems associated with the suspension system, specifically the rear coil springs, in MY 2000 Volvo V40 vehicles revealed insufficient evidence to warrant opening a safety defect investigation at this time. The information you provided has been entered into our database and will be considered with other reports to identify any safety defect trends that may require our attention.

Should you encounter a safety-related problem with a motor vehicle or item of motor vehicle equipment in the future, you can complete an electronic Vehicle Owner's Questionnaire online at

<http://www.nhtsa.dot.gov/ivoq>. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

A handwritten signature in black ink, appearing to read "Ronald B. Fields". The signature is written in a cursive style with a large, looped initial "R".

Ronald B. Fields, Chief
