

CL-10204913-1618

VIN # JT3VN21V2P0 [REDACTED] 03:39

My name is [REDACTED] I own a 1993 Toyota 4-runner. I don't recall the exact date it was purchased, it may be in 2002. I have been dealing with many problems due to my vehicle not running.

In those past years I've had to fix a hole in the transmission about four times. To this day my vehicle is parked in my garage due to the same problem, I am very frustrated due to the fact that I've been paying to fix the problem that may not be fixable. This problem has caused extreme hardship to my family being a single mother of four boys, I was unable to drive them to school on their first day again.

Now my car has been recalled for the "steering relay rod, and have no way of getting it to Northridge Toyota, I called to see if they can help me, but I've been treated unfairly. What do I do?

Please help.
