The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

When you lock the car after 5 or 10 minutes the window will automatically come down and the inside light will come on or when you leave the car unlock after 5 or 10 minutes the door will lock itself.

I think this is a safety issue because if a person is inside the vehicle, they will not be able to get out from the inside. This problem started about 1 month ago, but start back working after so long. I feel that is a defect somewhere.
