

TO:

DEAR SIR

DATE:

MY WIFE AND I HAVE A
2003 CHEVROLET SILVERADO ³/₄ TON
TRUCK AND A 2003 CHEVROLET
TAHOE. WE HAVE TO KEEP REPLACING
THE INTERMEDIATE STEERING SHAFT
AND IT ONLY LASTS A FEW THOUSAND
MILES BEFORE IT GETS VERY NOISY
AGAIN. THE DEALER SAYS IT WON'T HURT
ANYTHING BUT IT WON'T PASS OUR
STATE INSPECTION THAT WAY SO IT
CAN'T BE SAFE. I FEEL IT IS A
SAFETY DEFECT AS WE KNOW SEVERAL
OTHER PEOPLE WHO ARE HAVING THE
SAME PROBLEM. THANK YOU FOR
YOUR CONSIDERATION,

ERIE, PA
