Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I recently went to a Nissan dealership (nissan north 614-846-8100) and had a diagnostic test done to my car. The results that came back was that the camshaft sensor was bad and that is what was causing all the problems with my car. I am currently trying to have the service done under a recall campaign because all the symptoms I have with my car are all stated under there recall campaign, but unfortunately my vin number doesn't fall into that recall. I am hoping you or someone can help me put my car under that recall campaign. Thank you
