Reference: Nissan 2.5 Altima - VIN 1N4AL11D85C

The above vehicle was purchased June 15, 2005 from Chris Myers Nissan, P.O. Box 1170 Highway 98, Daphne, Alabama, 36526. Mileage was 24,106. The current mileage is 54,530.

November 16, 2007, while driving at about 50 MPH the car all of a sudden deaccelerated to about 20 MPH. Tried to regain the speed but car would not accelerate. Had vehicle transported to Chris Myers Nissan. They replaced throttle chamber and we had the fuel injection service at cost of

Later in November had same problem again. Transported vehicle to Chris Myers. As vehicle returns to normal operation after ignition is turned off then turned back on, Chris Myers staff drove the vehicle over a three day period trying to duplicate the problem. Couldn't do it,

December 7, Problem again; driving about 45 MPH, immediately dropped to about 20 MPH and would not accelerate. Took it to Pat Peck Nissan, Mobile, Alabama. Under a recall they did something to the computer.

December 15 had problem again. Parked car as afraid will be injured or killed while driving in heavy, fast traffic.

Dealers say bring it to them while it is having the problem. This is not a practical answer. I called Nissan and a lady at 1-866-799-1690 gave me the same answer.

Nissan File Number is

We would like to have our vehicle fixed so we can drive it. I am 84 years old, recovering from cancer surgery and have a heart problem. I need my vehicle.

Sincerely
