APPLICABLE INCIDENT INFORMATION

(Please describe in detail the incident(s), failure(s), crash(es), and injury(ies).)

Crash [ ] Yes [X] No Fire [ ] Yes [X] No
Number of Persons Injured 0 Number of Deaths 0 Reported to Police N

Narrative Description of Incident(S), Crash(es), and Injury(ies).
Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e. parts repaired or replaced (and if old part is available).

TL\*THE CONTACT OWNS A 2008 HYUNDAI SONATA. THE FRONT PASSENGER SIDE AIR BAG LIGHT ILLUMINATED INTERMITTENTLY. THE AIR BAG LIGHT INDICATED THAT THE AIR BAG WAS DEACTIVATED. THE DEALER STATED THAT THE PASSENGER MAY NOT WEIGH ENOUGH TO ACTIVATE THE AIR BAG FEATURE. THE CONTACT'S WIFE IS THE ONLY PASSENGER THAT SITS IN THE PASSENGER SEAT AND SHE WEIGHS 135 LBS. THE VIN WAS VERIFIED, BUT APPEARS TO BE INVALID. THE ENGINE SIZE WAS UNKNOWN. THE FAILURE MILEAGE WAS 10 AND CURRENT MILEAGE WAS 2,600.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

ATTACH ADDITIONAL SHEETS IF NECESSARY

My name is [REDACTED] reference No 10217807

I had a 2007 hyundai sonata which i purchase in aug 2007 We had a air bag problem on the passanger seat Hhyundai tryed to repair it and could not they even when as far as to change the front seat. I have a heart problem and did not want any stress In november 2007 I was talked into trading in the hyundai sonata for a 2008 sonata big mistake we have the same air bag problem and also vibration in gas pedal and steering They said the wheels needed to be balanced. and it was the tires also road noise this was in Dec 5 2007 .We whent to lemon law court and lost the case. Hyundai said the tire pressure was wrong and changed the tire pressure . when i asked them about the air bag problem and how much a person should weight should a person be toseat in the passanger he gave me no answer. They i was told its how a person seat in the seat when I asked him how should some one sit in a car seat i was told you dont need a air bag as long as your seat belt is on. I told him hyundai should sell cars by a persons weight so a person can feel safe in automobile . When they road tested the car the air bag was working . hyundai sean it happen four times It happenes on and of you never knew when it will happen the viration is in the tique converter between40 and 45 miles it happens I am told that is also normal . I BOUGHT A CAR TO INJOY IT . thank You [REDACTED]

SEAT IN Dec. 07

Hello

My name is [REDACTED] I purchase a 2007 hyundai sonata in Aug 2007 and had several problems one was when my wife sat in the passanger seat the air bag was not on. They replaced the set as they said the seat sensors were not working . After the seat was replaced we had the same problem . I had a heart attack and did not want to have an stress . I was talked into buying a 2008 hyundai sonata I am haveing the same problem now they tell me it a problem on many cars . I had the car in three times was told they could not repair it I called The BBB auto line I also called hyundai at 1 800 633-51510 ext 54249 and spoke to Andrew who has my case. They told me to bring the car in on December 20 2007 I took the car to the services dept .A this time the sensors in the seat was working so i was told there was noting wrong with the seat .The three previous times i had the car in they seen the problem. As i was leaving the services center i had the problem I had the hyundia engineer who was sent to check the car put a special tester on he told me this custmer brought vehicle back before leaving dealership. Pass air bag light was on with [REDACTED] in seat connected hy scam seat indicated small occupent. this was verified by Jerry Merrill. They are saying my wife at times dosent have enought weight then i was told its how the person sits in the seat My wife weight is about 140 to 145 pounds. I never knew some one had to be a special weight , or sit a special way in a car seat. If this is true they should sell cars by someones weight. The bottom line is they cant adjust the seat sensors. I dont want anyone sitting in a unsafe car I have also been told she dosent call for having a air bag on. the car was purchase at hyundai of new port richey fl. [REDACTED] phone [REDACTED] Thank you [REDACTED] adress is [REDACTED] Port Richey FL [REDACTED]

Hyundai Moters America

I have a 2008 sonata that a vibration in the steering wheel and gas pedal. between 40 and 45 miles first i had it at 38 to 42 miles they reset adapt ive values now its 40 to 45 miles At first we though the problem was tires on dec 12 2007 they rebalanced tires, I also had a air bag problem on passanger seat at the hearing we were told the tire air pressager in the tires was wrong the Hyundai rep. changed the air pressure .we lost the case I was still having a vibration problem took the car back to hyundai they re balanced the tires and said the air pressure in the tires was wrong and changed the tire pressure. We road tested the car with the mech. at that time they said it not the tires causing the vibration problem It is in the lock up in the tirque converter. how would you like to own a new car that between 40 and 45 miles the car vibrates. I BOUGH THIS CAR TO ENJOY DRIVINGI IT AND I AM SORRY TO SAY I DONT. My friend has the same car and does not have the problem. which i have This is the second sonata i have owned The 2007 had air bages problems being i just had a heart attack and did not want any stress i was talk into trading it in for 2008 big mistake Never had a vibration problem in that car. I asked them toreplace the tique converter they said no. Can something be done to correct this problem I will say the service manager Jerry is avery pleasent and trying person who cares about people .i belive he goes by Hyundai policy. Would please answer my letter.. I bought the car at HYUNDAI NEW PORT RICHEY  
3936 U.S HIGHWAY 19 New Port Richey Fl.34652-6152
