Dear Sirs,

The 1998 Honda Passport VIN # 4S6CM58W0W4 [REDACTED] was repaired by Shuler Ent. 2/15/2008 because of a rusted frame. The Right Lower Control Arm Mount had detached because the frame had rusted in that area. The Left Mount was still attached but had a large hole in it. The Spring Mounts also had large amounts of rust. The rust on this frame made the vehicle unsafe to drive.

Thank You,  
Joseph Shuler
