**National Highway
Traffic Safety
Administration**

1200 New Jersey Avenue SE
Washington, DC 20590

May 27, 2008

Norfolk, VA [REDACTED]

Dear [REDACTED]:

NVS-216 et
Ref. No. 10227151

Thank you for your correspondence dated May 12, 2008, concerning your model year (MY) 2004 Volvo XC90. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence on May 15, 2008.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. We have reviewed our database in an effort to identify whether a safety defect trend exists with regard to sun roof problems and power train, specifically transmission failure, in MY 2004 Volvo XC90 vehicles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. The information you provided has been entered into our database. It will be considered with future reports to identify any safety defect trends that may require our attention.

Clearly, transmission failures and the cost of their replacement is frustrating. While frustrating, the type of transmission problem you described is not related to motor vehicle safety within the meaning of our authorizing statute. The agency has no jurisdiction over non-safety defects, warranty, and remuneration matters. If you have not done so, you may consider contacting the Federal Trade Commission (FTC). The FTC has jurisdiction over paint, fraud, or

deception, warranty and dealership problems, remuneration matters, and fair trade practices. There are three ways you can contact the FTC: by toll free telephone at 1-877-FTC-HELP (1-877-382-4357); by mail at Federal Trade Commission, CRC-240, Washington, DC 20580; and by using the Internet complaint form at <http://www.ftc.gov/ftc/complaint.htm>.

Should you encounter a safety-related problem with a motor vehicle or item of motor vehicle equipment in the future, you can complete an electronic Vehicle Owner's Questionnaire online at <http://www.nhtsa.dot.gov/ivoq>. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

A handwritten signature in black ink that reads "Frank S. Borris II". The signature is written in a cursive style with a large, stylized "F" and "B".

Frank S. Borris II, Acting Chief
