Re: 2004 Acura TL
Windshield Wiper Motor Recall

Dear American Honda Motor Co.:

I am writing to request that American Honda Motor Co. reimburse me for the costs incurred by me to have the windshield wiper motor replaced on my 2004 Acura TL (VIN: 19UUA65504A [REDACTED]).

On or about June 1, 2007, the windshield wipers stopped working on my vehicle. On June 5, in addition to other service, the dealer replaced the motor. The dealer where this work was done is Criswell Acura in Annapolis, Maryland. The itemized cost of parts and labor for replacement of the wiper motor was \$ 308.86. A copy of the invoice is attached.

Subsequent to the service to my vehicle, Acura announced that it was recalling 2004 and 2005 Acura TL's for faulty wiper motors. I received the recall notice in the mail earlier this week (copy attached).

I therefore ask that you reimburse me the costs incurred by me to have this subsequently recalled part replaced. Please forward a check in the amount of \$308.86 to me at the above address.

Should you have any questions, please call me at [REDACTED]

Best regards,

cc: Administrator, National Highway Traffic Safety Administration
